

DHARSHINI SURESH

Aspiring AI/ML Engineer | Data Analyst

dhارشusuresh170506@gmail.com | 9894485175 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Final-year Computer Science Engineering student with strong analytical and problem-solving skills and hands-on experience in Python, SQL, Data Analytics, Machine Learning, and Generative AI. Passionate about developing intelligent solutions, analyzing data, and applying AI/ML techniques to real-world problems. Experienced in building AI and data-driven projects, collaborating through internships, hackathons, and technical activities to develop practical solutions.

INTERNSHIP EXPERIENCE

Gen AI Intern | Evolve Robot Lab *Dec 2025 - Jan 2026*

- Assisted in developing and testing Generative AI applications based on business requirements.
- Collaborated in integrating AI APIs and third-party tools to improve application functionality.
- Participated in testing, documentation, and solution validation to ensure project requirements were met.

Data Science Intern | Elysium Groups *Jun 2025 - Jul 2025*

- Collected, cleaned, and analyzed real-world datasets to identify business insights.
- Performed data preprocessing, exploratory data analysis (EDA), and generated analytical reports.
- Created visualizations to support data-driven decision-making and business recommendations.

EDUCATION

B.E. Computer Science Engineering | NPR College of Engineering and Technology *2023 - Present*

PROJECTS

Shell Cycle | Eco-friendly Pothole Reporting Web App | [Live Site](#)

- Gathered user requirements and developed a web application with GPS location tagging, image upload, and an admin dashboard.
- Integrated Firebase Authentication, Firestore, and Cloud Storage to streamline pothole reporting and tracking.

Sales Performance Dashboard | Power BI, Excel, DAX, Power Query

- Developed an interactive sales dashboard to analyze Sales, Profit, Orders, and Regional Performance using Power BI.
- Created KPIs and visualizations to identify business trends and support data-driven decision-making.

SMS Intent Classifier | Python, NLP, TF-IDF, Logistic Regression, Streamlit

- Developed an NLP-based machine learning model to classify SMS messages into predefined user intents.
- Preprocessed text data using text cleaning and TF-IDF vectorization for feature extraction.

SKILLS

Languages & Tools: Python • SQL • Excel • Power BI • Pandas • NumPy

Machine Learning & AI: Machine Learning, Data Analysis, Exploratory Data Analysis (EDA), Dashboard Reporting, Data Visualization, TF-IDF

AI & Development: Generative AI, API Integration, Chatbot Development

RELEVANT COURSEWORK

- Learning Python for Data Science (Infosys Springboard)
- Power BI Training (Infosys Springboard)
- Introduction to MS Excel (Simpli Learn)
