EDUCATION

B.E. Computer Science Engineering

NPR College of Engineering and Technology
2023 – 2027

CGPA: 7.4/10

SKILLS

Programming Languages: Python, SQL

Data Analytics Tools: Pandas, NumPy,

Matplotlib, Seaborn, Microsoft Excel

Core Concepts: Exploratory Data Analysis

(EDA), Data Visualization, Data Cleaning, Data

Preprocessing, Machine Learning Basics

AI & Development: Generative AI, API

Integration, Chatbot Development

LANGUAGE

English

Tamil

About Me

Computer Science Engineering student with hands-on experience in Data Analytics, Python, and Generative AI through internships and academic projects. Skilled in Exploratory Data Analysis (EDA), data visualization, SQL, and AI application development. Passionate about solving real-world problems using technology and continuously learning emerging tools and technologies.

INTERNSHIP EXPERIENCE

GenAI Intern – Evolve Robot Lab

Dec 2025 – Jan 2026

- Worked on Generative AI applications and chatbot systems
- Integrated APIs for AI functionalities
- Learned Machine Learning fundamentals

Data Science Intern – Elysium Group

Jul 2025 – Aug 2025

- Performed data analysis using Python libraries
- Created visualizations and handled data preprocessing
- Worked on exploratory data analysis (EDA)

PROJECTS

ShellCycle

Eco-Friendly Pothole Management System

- Developed a smart pothole reporting and management system
- Proposed the use of eggshell-based eco-friendly composite material for repairs
- Implemented GPS-based location tracking and image upload functionality
- Designed an admin dashboard to monitor repair requests and community reports
